

SCAFFOLDING INSPECTOR M/F

Who are we

Working for STE means working in an international oriented company with an ambitious team. We work to provide our clients with professional and efficient services. We offer a wide scale of 'safely working on heights' services around the whole world and we find customer satisfaction to be very important.

STE is an expert in safely working on heights. As a specialized trainings institute we provide:

- Courses and trainings
- Competence assessment and advice
- Inspections and Consultancy

For our inspection work we are always looking for experienced Scaffolding Inspector (m/f). As independent inspection and advise office, besides safety and quality inspections we also perform quantity checks. Our Inspectors are mainly hired for big projects within European construction, (petro)chemical industry, maritime industry and offshore industry.

Among other things your primary tasks and responsibilities will be:

- Assessing the strength, stiffness and stability of standard scaffolding on the basis of drawings and when in order the releasing of the scaffolds
- Inspection of scaffold materials according to the current criteria and standards
- Inspecting and assessing the safety of scaffolding in all phases
- Indicating corrective measures
- Provide insight into corrective and / or replacement structural measures with sketches
- Legal and liability aspects of Scaffolding
- Coaching on the job to bring people and scaffolding to a qualitatively better and safer level
- Write reports and make recommendations

Job requirements

We work with different grade inspectors, however for all jobs the following requirements must be met:

- Have the competence level of an intermediate vocational education (MBO) regarding thinking, reading and writing
- Experience as scaffolding inspector or in a managerial function within Scaffolding
- Able to work independently from Scaffolding related companies
- Have a VCA VOL and a certificate of professional competence for Scaffolding Inspector
- Master the Dutch and English language verbally and in writing
- Preferably you master another language
- Good communication skills
- Knows MS-office
- B drivers licence
- Relevant working experience is preferred

What we offer

- Salary conform CLA-guidelines
- Temporary contract with the possibility of a permanent contract if you function well
- Hiring of independent contractor is also possible
- Work hours can be discussed
- Possibility to additional training and coaching for example for personal growth

Are you the person for whom a project can never be too big or complex? Do you have the motivation to carry on when over people would quit, just like us? Are you a driven and detail oriented person, who always wants to be informed of the current rules, norms and guideline concerning Scaffolding? Then we want to meet you!

You can apply to the mentioned vacancy by sending us a letter of application and your Curriculum Vitae. We will take your application into consideration and contact you as soon as possible. If you haven't received an answer within 14 days, then feel free to contact us.
